

I ask that you don't allow soften or eliminate FCC regulations on the broadcast media. I don't think loosening or scrapping these regulations is in the public interest. I don't think our government should represent the interests of multinational corporations over the interests of its citizens. Please stop what you are doing. Allow for public review and debate on the proposed changes. And stop to consider the average citizen's interest once in a while. I know no one elected you so you don't feel beholden to anyone but the president and his and your rich friends in the media and other industries. You are doing a good job of stamping democracy out in this country. Whatever happened to "of the people, by the people, for the people"? Is that just another empty phrase to be eliminated from our constitution?
